

Policy on Air Freighting

In any product offered by Abel & Cole it's our policy to minimise the impact on the environment wherever possible.

To that end, Abel & Cole will never air freight any product offered for sale. We reserve the right to refuse delivery of, or recall from customers, any product or packaging that is discovered to have been sent via airfreight.

Suppliers are expected to sign a declaration contained within the product specifications to agree to not air-freight any item which is intended for Abel & Cole.

This policy is also outlined in our Supplier Handbook.
